CORE COMPETENCIES

- Responsive Design
- Web Design & Development
- Performance optimization
- Front-end frameworks
- Back-end programming
- RESTful APIs
- Database management
- Server-side frameworks
- Authentication and authorization
- Web security best practices
- Testing and debugging
- UI/UX design principles

TOOLS & TECH

- MS Office
- Laravel
- HTML & CSS
- JavaScript
- React.js
- jQuery
- Bootstrap
- Tailwind CSS
- Material UI
- PHP
- Rest API
- Git & GitHub
- WordPress

SOFT SKILLS

- Communication skills
- Critical Problem-solving
- Project Collaboration

WORK EXPERIENCE

Laravel Developer Mar 2024 - Present

BD Calling IT Ltd. | Dhaka, Bangladesh

Achievements:

- Enhanced web application performance by 70% through the integration of efficient Laravel caching techniques.
- Successfully reduced data retrieval times by 40% by optimizing database schemas and implementing advanced MySQL indexing strategies.
- Led a team of 3 developers to deliver 4+ Laravel projects on time, maintaining a 95% client satisfaction rate.
- Successfully resolved technical challenges and bugs within tight deadlines, showcasing problem-solving skills and attention to detail

Duties & Responsibilities:

- Develop and maintain web applications using the Laravel framework, following industry best practices and coding standards.
- Design and implement efficient database schemas, ensuring seamless data storage and retrieval using MySQL or other relational databases.
- Collaborate with project managers and stakeholders to gather requirements and define project scopes.
- Write clean, well-documented code and conduct thorough testing to ensure application reliability and security.
- Troubleshoot and debug issues as they arise, implementing effective solutions to minimize downtime.
- Stay updated with the latest technologies and trends in web development, proactively suggesting improvements to existing processes and methodologies.

Full Stack Developer Sept 2023 - Feb 2023

Zaimah Technologies Ltd. | Dhaka, Bangladesh

Achievements:

- Successfully transitioned from probation to a key contributor in just 6 months, significantly ahead of the average 12-month period.
- Contributed to the Clinical Management System (SaaS projects), increasing system efficiency by 30% through innovative feature development.
- Enhanced user interface aesthetics and functionality, resulting in a 40% increase in user satisfaction ratings.

Duties & Responsibilities:

- Collaborated with cross-functional teams to develop and maintain web applications, focusing on the Clinical Management System.
- Utilized technologies including React.js, Material UI, Tailwind CSS, Bootstrap, Rest API, PHP, and Laravel to implement robust and scalable solutions.
- Conducted thorough testing and debugging of applications to ensure reliability, security, and adherence to project requirements.
- Continuously researched and evaluated emerging technologies and best practices to enhance project development and efficiency.
- Assisted in defining project scopes, requirements gathering, and project planning to ensure successful project delivery.
- Provided technical guidance and support to junior developers, fostering a culture of learning and innovation within the team.
- Collaborated closely with the front-end team to integrate user-facing elements with server-side logic efficiently.
- Troubleshoot and debugged complex functional issues in an agile environment.
- Managed cutting-edge technologies to improve legacy applications.

Full Stack Developer

June 2023 – August 2023

Local Client

- Designed and developed a dynamic website tailored to the specific needs of a local client offering tax-related services
- Implemented a user-friendly appointment scheduling system, streamlining client interactions and enhancing customer satisfaction.
- Integrated secure e-commerce functionality for seamless online booking and purchase of tax-related PDF documents and courses, facilitating revenue generation.
- Employed responsive design principles to ensure optimal performance and accessibility across various devices, enhancing user experience and engagement.

INTERNSHIP

Oct 2022 - May 2023

Web Developer (PHP & Laravel)

Creative IT Institute

- Collaborated with project stakeholders to gather requirements and define project scopes for e-commerce web application development.
- Utilized PHP and Laravel frameworks to develop and maintain robust and scalable web solutions, adhering to industry best practices and coding standards.
- Led a team of developers, providing technical guidance and support to ensure successful project delivery and adherence to project timelines.
- Converted design mockups from PSD, Figma, or XD into responsive HTML and React.js components, ensuring pixel-perfect implementation and cross-browser compatibility.
- Conducted thorough testing and debugging of web applications to ensure functionality, security, and performance.
- Assisted in documentation and version control processes to maintain project integrity and facilitate collaboration among team members.

PROJECTS

GreatDoc Mobile App | Role: Laravel Developer

- https://play.google.com/store/apps/details?id=com.mhp.mhp_digidocctor_app&pcampaignid=web_share
- Utilized PHP Laravel for robust and efficient backend functionality, ensuring seamless integration with the frontend components.
- Maintained clear and thorough documentation of the backend architecture, APIs, and codebase to facilitate future updates, troubleshooting, and onboarding of new team members.

Digi Patient Mobile App | Role: Laravel Developer

- https://play.google.com/store/apps/details?id=com.micro.digi_patient&pcampaignid=web_share
- Leveraged PHP Laravel framework to develop a robust backend infrastructure, ensuring seamless integration with the frontend components and optimal performance under varying load conditions.
- Supported continuous integration and deployment processes, automating build and deployment pipelines to streamline development workflows and accelerate time-to-market.

AppartPro | Role: React.js & Laravel Developer

- <http://appartpro.greatpharma.org/>
- Collaborated with the development team to design and implement user-friendly interfaces for landlords, tenants, and property managers, ensuring intuitive navigation and efficient management of property-related tasks.
- Utilized React.js to create dynamic and responsive frontend components, enhancing the user experience and enabling seamless interaction with the application.
